BIOL 1108 Principles of Biology II

PHYS 2411 Physics I: Classical Mechanics or

MATH 2012 Calculus II

¹ Students beginning in Spring or Summer semesters will work with their academic or faculty advisor to modify their two-year plan accordingly

² Students should take MATH 1113, Pre-Calculus, in Area A as a prerequisite to MATH 1540, Calculus I, for the math requirement of Area D. A strong high school background in mathematics and sufficient aptitude are necessary to follow this path. Otherwise, the student should be encouraged to take MATH 1111, in Area A, plus MATH 1113 and then MATH 1540 in Area D which results in additional hours.

NOTE: It is vital to the student's academic success to review the student's intended transferring institution and major to select the guided elective in AREA F.
